PRATICAL JOB

Professional Development & Specialized Training

- Intensive 3 months full time German Classes where I achieved German Level A2.
- Intensive Agent AI Learning
- CompTIA Security+
- CompTIA A+
- CompTIA Cysa+

Planerio
07.2022 to 05.2025

Software Developer (Full Stack)

- Utilized AWS services (Lambda, S3, Quicksight) to enhance infrastructure and data analysis.
- Employed Terraform for Infrastructure as Code (IaC) automation to achieve efficient SaaS scaling.
- Developed the frontend using TypeScript and React to design user-friendly and dynamic interfaces.
- Maintained and optimized the existing SaaS platform, including regular updates to guarantee system stability.
- Performed technical upgrades and modernized the software architecture for application scalability.
- Integrated and expanded backend functionalities with Python to improve data processing and analysis capabilities

Planerio (Outsourced)
11.2019 to 06.2022

Software Developer (Full Stack)

- Built and improved features with PHP and Symfony to grow the SaaS platform.
- Fixed issues across backend and frontend to keep everything running smoothly.
- Created interactive screens with TypeScript and React.
- Kept the platform updated and stable with regular improvements.
- Upgraded parts of the system to support future growth.

InnoScripta
05.2019 to 10.2019

Software Developer (Full Stack)

- Front-End Development using NodeJS, ReactJS, Redux and Rest APIs.
- Front-End Secondary in PHP Native and AngularJS.
- Back-End Development using Laravel, Elloquent and PHP Native.

IBM (Outsourced)
04.2016 to 04.2019

Systems Analyst

- Microservices Integrations Development and Support.
- Java and Javascript Integrations Maintenance.
- XML/XSLT Processing Optimization with Multithreading.
- Vue/NodeJS Integration Monitoring Tool Development.

161 Soluções
12.2013 to 04.2016

Software Developer

- Java Android Development
- Javascript Backend Development
- Web Development
- C++ Development for Microcontrollers
- Python Development for Raspberry PI
